BLACKHAWK!

ARMOR

**QUICK RELEASE SYSTEM:**  
**1 SECOND**

**2 SECONDS**

**2.5 SECONDS!**

**Our Mission at BLACKHAWK! Armor™ is to design, manufacture and globally distribute armor and armor-related products that will increase operator efficiency, help develop confidence, and assist in mission completion.**

Not only will these products perform on their own as described, they will also effectively dovetail with many of the other items produced by BLACKHAWK!®

We are featuring an ergonomically advanced Cut-Away Tactical Carrier that is fitted with our Increased Area Coverage™. It also features Special Threat Level IIIA soft armor panels utilizing proven, state-of-the-art ballistic materials that are NIJ 0101.06 Certified as well as tested to Mil STD 662F.

BLACKHAWK! also offers a full array of ballistic accessories including collar, yoke, biceps, groin protection, and drop leg armor.

Shown within the following pages is a family of multi-curved "Operator Cut" plates. All BLACKHAWK! plates are certified in accordance with the requirements for the NIJ Standard 0101.04, and Standard 0101.05 Level IV protection as a "Stand-Alone Plate." Made of a proprietary, ceramic material, BLACKHAWK! Armor™ Rifle Strike Plates are made to be worn alone or in conjunction with NIJ Certified Level IIIA soft armor.

BLACKHAWK! Armor™ also offers a MICH-style Level 3A ballistic helmet that is based off of the Special Forces Modular Integrated Communications Helmet (MICH). Our helmet enhances operator movement, features a fully adjustable, proprietary 4-point padded suspension system for fit and comfort, allows for the use of NVG's and communications headsets and is more accommodating for prone shooting. Its Modified smaller shell enhances operator awareness by providing unobstructed field of view and hearing.

The BLACKHAWK! helmet features a proprietary design and has been tested to both the HPWTP-0401B Test Procedure and the Military Standard 662F for fragmentation.

**A magnitude of pouch placement makes this the MOST VERSATILE ARMOR SYSTEM ever!**

## BLACKHAWK!® BALLISTIC LEVEL IIIA MICH HELMET

Based on the original Special Ops MICH, this design maintains a large coverage area while providing extreme comfort. This helmet is designed for Military and Police special tactical units where compatibility with all NV and communication systems is of critical importance. Our unique design suspension system is superior and won't require replacement with aftermarket pads. BLACKHAWK!'s practice of combining hands-on testing with in-depth materials and research has also given this helmet a unique and proprietary suspension system.

**COMFORTABLE HEAD HARNESS IS FULLY ADJUSTABLE AND INSULATED (PATENTS PENDING) ADJUSTABLE CROWN AND TEMPLE TENSION**

**IMPROVED OPERATOR'S CUT TO ENHANCE HEARING AND VISION**

**QUICK RELEASE SYSTEM 2 WAY ADJUSTABLE CHIN STRAP**

- FULLY ADJUSTABLE TO FIT A VARIETY OF HEAD SHAPES
- 2 WAY ADJUSTABLE REAR SUPPORT

**WEIGHT:** 2.7 LBS.

**CONSTRUCTION:** Plain weave aramid in a high tensile elongation resin

**COATING:** Epoxy and polyurethane shell coatings

### PERFORMANCE:
