

# NOTHING SHALL STAND IN YOUR WAY®

BLACKHAWK!

TACTICAL ENTRY TOOLS

## LIGHTER • FASTER • STRONGER

As mission requirements and objectives constantly change, Dynamic Entry® is relentless in our drive to meet these evolving needs. This past year we have spent countless hours in the development of new and specialized breaching equipment for entry teams throughout the world. This hard work has culminated with the introduction of the new Mini Tool Series™ and our first ever Collapsible Tool line. We have also reintroduced a Padlock Buster™ that is stronger and provides more leverage than our previous design.

Our tools have been continuously tested in the most dangerous and volatile environments known to the tactical community. We continue to live up to and surpass expectations and claims. We realize you can't be all things to all people, so at Dynamic Entry we focus on what we know better than anyone on the planet: Tactical Entry tools.

# COLLAPSIBLE TOOL SERIES™

Dynamic Entry, the industry leader in manual tactical entry tools, is proud to introduce our first ever line of collapsible entry tools. Combining years of research and development with input from operators in the field, our new Collapsible Tool Series™ meets and exceeds our legendary durability standards.

At the heart of this revolutionary design is an expoxied fiberglass core surrounded by two interlocking stainless steel shafts. Compact for transport and operations in confined quarters, when extended these shafts provide extra leverage that allows the operator to employ more strike power, pry leverage and breaching force.

A specially designed dual locking mechanism secures the shafts when extended; a durable molded handgrip provides exceptional grip in cold, damp and extreme weather conditions while also protecting the locking mechanism from dirt or debris.

## COLLAPSIBLE BREACHER™

**NEW!**

Features the newly redesigned tempered stainless steel wedge that includes friction ridges on all contact surfaces that are counter-angled to the head. Designed specifically to grip breaching surfaces securely, these counter-angled friction ridges also provide contact edge stability during breaching operations and prevent tool slippage.

The Collapsible Breacher™ provides the operator with two lengths: 16.75 inches when collapsed and 24.5 inches when extended for added leverage.

### DE-CB

**Weight:** 7.4lbs  
**Length Collapsed:** 16.75"  
**Length Extended:** 24.5"  
**\$399.99**

## COLLAPSIBLE MINI THUNDERSLEDGE™

**NEW!**

Featuring a 6-pound, drop-forged head, the Collapsible Mini ThunderSledge™ provides the operator with two lengths: 14.5 inches when collapsed and 22 inches when extended for added striking force.

### DE-CMTS

**Weight:** 10.2lbs  
**Length Collapsed:** 14.5"  
**Length Extended:** 22"  
**\$349.99**

## COLLAPSIBLE STAINLESS HALLAGAN TOOL™

**NEW!**

Features the newly redesigned tempered stainless steel wedge and horn that includes friction ridges on all contact surfaces that are counter-angled to the head. Designed specifically to grip breaching surfaces securely, these counter-angled friction ridges also provide contact edge stability during breaching operations and prevent tool slippage.

The Collapsible Stainless Hallagan Tool™ provides the operator with two lengths: 16.75 inches when collapsed and 24.5 inches when extended for added leverage.

### DE-CSHT

**Weight:** 7.7lbs  
**Length Collapsed:** 16.75"  
**Length Extended:** 24.5"  
**\$399.99**

**BLACKHAWK!® DYNAMIC ENTRY® THE SMALL PRY™**

The Small Pry™ is a revolutionary new breaching tool that combines specialized prying capabilities with a readily available cutting edge. A collaborative effort between BLACKHAWK!'s Dynamic Entry® and Knife categories, it is designed to be the perfect tool for specialized entry functions like prying interior doors and drawers, window "break-and-rake" operations, and tactical cutting chores like removing screens and chopping through drywall. Machined from solid D-2 tool steel and tempered to RC-55-57 for extreme toughness, the Small Pry features a black epoxy powder-coat finish for durability and corrosion resistance and a checkered thermoplastic rubber handle for a secure, comfortable grip. An incredibly versatile tool, it comes complete with an injection-molded nylon sheath that is compatible with S.T.R.I.K.E.® MOLLE hardware attachments and a mounting plate that fits Dynamic Entry's popular tactical backpack kits.

**SPECIFICATIONS:**

- Blade Length: 4.390"/112mm
- Overall Length: 14.460"/367mm
- Blade Material: D-2 tool steel
- Blade Finish: Black epoxy powder-coat
- Edge type: Plain edge only
- Handle Material: Checkered, over molded thermoplastic rubber
- Sheath: Injection-molded nylon

**BLACKHAWK!® DYNAMIC ENTRY® SPECIAL OPERATIONS ENTRY RAM™**

The newest edition to the Dynamic Entry® family of entry rams, the patented Special Operations Entry Ram™ answers all of the requests and suggestions of operators in the field for a compact, yet powerful tactical entry ram. Featuring Dynamic Entry's ergonomic control-flex handle system to reduce impact stress, the Special Operations Entry Ram is non-sparking and electrically non-conductive; the ideal tactical entry ram for entries into known and unknown dangerous and volatile environments.

The operator friendly design of the Special Operations Entry Ram™ allows it to be swung outside the "FATAL FUNNEL." This pendulum-like motion ensures that no impact energy is wasted; in fact, the operator's impact force is increased. The unique handle orientation of this ram allows for more power, comfort and accuracy during operations. In addition to the new ambidextrous handle arrangement, the Special Operations Entry Ram™ is forward weighted, making it a close-quarter alternative to the larger MonoShock Ram™ where space is at a premium.

**DE-SOER**

**Wt: 30 lbs.**

**Length: 25"**

**\$299.99**

*The revolutionary new ambidextrous design features one lead handle and two opposing side handles, allowing for multiple grip configurations to help meet specific mission requirements.*

### BLACKHAWK!® DYNAMIC ENTRY® ACTIVE SHOOTER HALLAGAN TOOL™

The Active Shooter Hallagan Tool™ provides the best of both worlds, combining a non-sparking fork end with our newly redesigned stainless steel wedge and horn. The tempered wedge features counter-angled friction ridges that are specifically designed to grip breaching surfaces securely and provide stability during breaching operations. Designed with Active Shooter call outs in mind, the counter-angled friction ridges of the Active Shooter Hallagan Tool work to prevent tool slippage and increase bite when breaching even the most robust doors, such as those found in Government and School facilities. For additional safety, the ergonomic handle is designed to ensure proper hand placement and is electrically non-conductive to 100,000 volts AC for protection in dangerous and volatile environments.

**DE-ASHT**  
Wt: 7.5 lbs.  
LENGTH: 24"  
\$229.99

### BLACKHAWK!® DYNAMIC ENTRY® BREAK -N- RAKE™

Specifically engineered for window entries, the Break -N- Rake™ has been involved in successful tactical operations in both the U.S. and abroad. The Break -N- Rake features a laser cut hook and serrated blade, both constructed of military-grade steel, and three raking fins constructed of carbon steel. The reinforced hook effectively removes curtains, blinds and other obstructions, pulling them clear allowing for a safer entry. The three 12" fins on the 19.5 inch Break -N- Rake head are designed to clear glass and other debris left in the window frame. Secured to a 1.25 inch D-handle system for maximum pulling power, the fiberglass handle is electrically non-conductive to 100,000 volts AC. In addition to window entries, the Break -N- Rake is ideal for securing secondary breach locations or creating a tactical distraction.

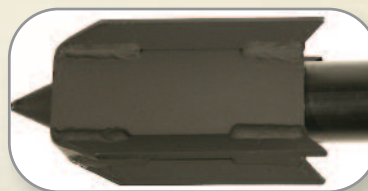

**BREAK -N- RAKE**  
**DE-BR**

\$259.99

### BLACKHAWK!® DYNAMIC ENTRY® MINI BREAK -N- RAKE™

Designed in conjunction with Domestic and International Operators, the Mini Break -N- Rake™ is perfect for those close quarter window entries where space is at a minimum. Compact, lightweight and portable, the Mini Break -N- Rake offers features comparable with its larger counterpart in only half the size and comes equipped with an electrically non-conductive D-handle system that is resistant to 100,000 volts AC.

Ideal for quick-response Tactical and Rescue operations, the 25 inch Mini Break -N- Rake fits easily in the trunk of patrol or rescue vehicles. The tool also works as a replacement for the Special Operations Hallagan tool in our Tactical Backpack Kit™ or in our Modular Backpack™.

**DE-MBR**  
Wt: 4.5 lbs.  
Length: 25"  
\$159.99

**BLACKHAWK!® DYNAMIC ENTRY® TACTICAL BREACHING SAW™**

In our attempt to meet the ever changing demands of the tactical community, Dynamic Entry® has taken a page out of the Fire Department's playbook and modified a traditional Fire and Rescue tool with Police and SWAT personnel in mind.

At 64" in overall length, our Tactical Breaching Saw™ keeps the operator at a safe distance while cutting inspection holes in false ceilings, breaching lightweight metal skins (such as those found on mobile homes) or when cutting through sheetrock and other light building materials.

The high carbon steel head is equipped with specifically positioned cutting teeth along the underside for maximum sawing power, with a tip and sharpened edge opposite for chopping and cutting operations. The Tactical Breaching Saw blade is protected by a sturdy sheath that protects both the operator and the tool.

Our Tactical Breaching Saw is an excellent addition to your existing tactical entry equipment, allowing operators to meet those unexpected situations head-on with the right tool for the job. Features an electrically non-conductive D-handle system with a safety-guard handgrip to reduce the possibility of the operator's hand slipping onto the working end of the tool.

**DE-TBS**  
**Wt: 9.5 lbs.**  
**Length: 64"**  
**\$249.99**

**BLACKHAWK!® DYNAMIC ENTRY® MOBILE HOME DOOR BREACHER™**

Outward opening mobile home doors have been a breacher's nightmare for years. Dynamic Entry® spent countless hours in the development of a solution to this potentially hazardous obstacle that has proven to be both effective and efficient in tactical operations. With minimal training, the Mobile Home Door Breacher™ will allow for safe and rapid entry into outward opening, metal skin mobile home doors during tactical operations.

The unique leverage orientation of this tool literally pulls the locking mechanism free of the doorjamb while simultaneously opening the door. Featuring an electrically non-conductive D-handle system which is resistant to 100,000 volts AC and a laser-cut carbon steel reinforced breaching head, the Mobile Home Door Breacher™ was designed with Dynamic Entry's legendary standards of excellence to withstand years of abuse.

### BLACKHAWK!® DYNAMIC ENTRY® BREACHING SLEDGES™

The Breaching Sledge™ brings together the best of both worlds: the strike face of a sledge hammer with the prying wedge of a Hallagan tool, all in one revolutionary, compact and lightweight tool. Utilizing the most advanced metallurgical technologies on the market, the head of the Breaching Sledge is composed of Micro-Metals that allow metal-on-metal use with reduced spalling. The Breaching Sledge also features a Sure-Grip handle system that is electrically non-conductive to 100,000 volts AC and reduces the possibility of the tool slipping out of the operator's hands in extreme breaching operations.

Also available in a larger version, the Super Breaching Sledge™ (DE-SBS), that is 32 inches in length.

### BLACKHAWK!® DYNAMIC ENTRY® PADLOCK BUSTER™

**NEW!**

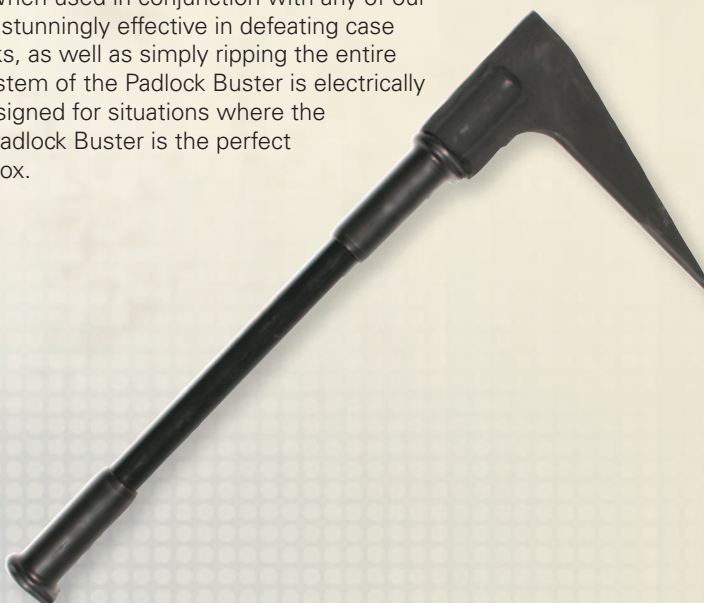

Redesigned for the 21st century, our Padlock Buster™ features our classic duckbill design constructed of durable and long lasting, military grade AR400 steel. When used in conjunction with any of our ThunderSledges™, the Padlock Buster is stunningly effective in defeating case hardened, non-commercial style padlocks, as well as simply ripping the entire hasp from the door jamb. The handle system of the Padlock Buster is electrically non-conductive to 100,000 volts AC. Designed for situations where the BoltMaster™ is not recommended, the Padlock Buster is the perfect complement to any tactical team's toolbox.

#### DE-PB

**BLACKHAWK!® DYNAMIC ENTRY® BREACHER SERIES™**

These heavy duty and lightweight hallagan-style breaching devices are designed for close quarter breaching situations. The Breacher Series™ utilizes the newly redesigned tempered stainless steel wedge that features friction ridges on all contact surfaces that are counter-angled to the head. Designed specifically to grip breaching surfaces securely, these counter-angled friction ridges also provide stability during breaching operations and prevent tool slippage. Safety-guard handgrips reduce the possibility of the operator's hands slipping onto the working end of the tool. Features an electrically non-conductive handle system which is resistant to 100,000 volts AC.

**BLACKHAWK!® DYNAMIC ENTRY® CQB RAM™**

When door-breaching speed is required for lightweight exterior and most interior doors, the CQB is the ram of choice. The oversized control-flex handle system allows breachers to position themselves outside the FATAL FUNNEL even in cramped breaching situations. The CQB Ram™ is electrically non-conductive and non-sparking.

**BLACKHAWK!® DYNAMIC ENTRY® MONOSHOCK RAM™**

The flagship of the Dynamic Entry® tool line, our Monoshock Ram™ is the expert breachers' entry ram of choice. Featuring electrically non-conductive, non-sparking construction, the Monoshock Ram™ is incredibly durable. While raiding known or unknown explosive environments, the Monoshock Ram™ aids in safe operations. Its handles utilize a control-flex handle system that reduces impact stress to the operator. Padded quick release sling included.

### BLACKHAWK!® DYNAMIC ENTRY® DYNAMIC DUO™

This Wozniak design was created after receiving multiple requests for a durable, easily deployable breaching kit that could be used in the majority of breaching situations. The Dynamic Duo™ includes a twelve-pound ThunderSledge™ and The Breacher™ which utilizes the newly redesigned tempered stainless steel wedge that features friction ridges on all contact surfaces that are counter-angled to the head. Designed specifically to grip breaching surfaces securely, these counter-angled friction ridges also provide stability during breaching operations and prevent tool slippage. Front and rear quick release straps allow for immediate “dumping” of the kit and rapid deployment of tools by fellow breachers

**BLACKHAWK!® DYNAMIC ENTRY® THOR'S HAMMER™**

Since its introduction to the tactical entry tool arena six years ago, the Thor's Hammer™ has earned a solid reputation among breaching teams as a versatile addition to the standard battering ram design. The hammer design allows the breacher to position themselves parallel to the doorframe, avoiding the "FATAL FUNNEL." After-action reports have shown the Thor's Hammer™ to be effective on lightweight exterior and most interior doors.

**BLACKHAWK!® DYNAMIC ENTRY® TACTICAL FENCE CLIMBERS™**

In our continuing efforts to provide the best tactical tools available, Dynamic Entry® has redesigned the Tactical Fence Climbers™. Through a combination of new technology and rigorous R&D, our design team has created a new laser-cut fence climber that is lighter, more compact and easier to deploy than our earlier design. This unique design provides a scaling rung on both sides of the fence for easy and rapid egress.

**DE-TFC (Set of Four)**  
Wt. 5.2 lbs.  
\$158.99

**FOLDS FOR EASY CARRY**

**BLACKHAWK!® DYNAMIC ENTRY® NON-SPARKING, ELECTRICALLY NON-CONDUCTIVE HALLAGAN TOOLS™**

Designed specifically for potentially dangerous and volatile environments, Dynamic Entry's Non-Sparking Hallagan Tools™ feature a composite construction that will not spark when struck or during prying operations. The ergonomically designed handle system ensures proper hand placement and is electrically non-conductive to 100,000 volts AC. The casting designs increase leverage for both the fork and horn working ends.

**NOTE:** The non-sparking alloy used in these tools is not intended for use on steel doors and frames. If breaching steel doors Dynamic Entry® recommends using one of our stainless steel tools, such as the Stainless Hallagan Tool™.

**BLACKHAWK!® DYNAMIC ENTRY® STAINLESS HALLAGAN TOOL SERIES™**

The Hallagan tool has been a standard entry tool for Law Enforcement, Fire and Rescue professionals for almost 75 years. Using recommendations from operators in the field, Dynamic Entry's design team has taken this classic design and modernized it for the 21st century. These redesigned tempered stainless steel Hallagan Tool heads feature friction ridges on all contact surfaces that are counter-angled to the head. Designed specifically to grip breaching surfaces securely, these counter-angled friction ridges also provide stability during breaching operations and prevent tool slippage. The solid fiberglass handle is electrically non-conductive to 100,000 volts AC --and features safety-guard handgrips that reduce the possibility of the operator's hands slipping into the working ends of the bar. The lightweight, sturdy fiberglass and stainless steel construction establishes the Stainless Hallagan Tool™ as the ideal tool for dangerous environments for both tactical and rescue operations. # BLACKHAWK!® DYNAMIC ENTRY® BACKPACKS

## Tactical Backpack Series™

Since their introduction five years ago, Dynamic Entry's Tactical Backpack Series™ has become the standard for law enforcement and military agencies throughout the world. From the original Tactical Backpack Kit to our new Modular Backpack™, Dynamic Entry® provides operators in the field with mission specific tooling options to best meet their tactical entry needs.

### BLACKHAWK!® DYNAMIC ENTRY® TACTICAL BACKPACK KIT™

The standard for most breaching operations, the Tactical Backpack Kit features the following:

- DE-BM      **BOLTMASER BOLT CUTTER™**
  - DE-TM      **THUNDERMAUL™**
  - DE-SOHT    **SPECIAL OPERATIONS HALLAGAN TOOL™**
  - 60ME00BK   **MANUAL ENTRY TOOL PACK™**

## BLACKHAWK!® DYNAMIC ENTRY® MODULAR BACKPACK™ (PACK ONLY)

Designed to meet the ever-changing mission requirements of today's operators, the Modular Backpack™ integrates S.T.R.I.K.E.®/MOLLE-compatible webbing, BLACKHAWK!'s patent-pending Speed Clip™ devices and Dynamic Entry's Modular Attachment System to provide a fully-customizable Entry Tool Platform. The pack is constructed of 1000 denier Nylon, making it lightweight and durable. Additional lumbar padding and wide shoulder straps afford the operator maximum comfort during use.

The Modular Backpack comes equipped with a large tool pouch, which is reinforced and Kydex-lined to prevent ripping or tearing; the pouch also features reinforced drain holes. The Modular Retention Straps provide for quick and secure mission-specific tool configurations that can be rearranged on-site if necessary. The Modular Retention Straps come in various sizes to accommodate Dynamic Entry's diverse tool line and an assortment are included with the backpack.

*The Modular Tool Pack, a fully-customizable, S.T.R.I.K.E./MOLLE-compatible, Entry Tool Platform, will store easily in the trunk of a patrol car and is ideal for Active Shooter Callouts.*

### BLACKHAWK!® DYNAMIC ENTRY® BOLTMASTERS™

The specifically heat-treated cutting edges of the BoltMaster Series™ are the finest available anywhere. All of Dynamic Entry's bolt cutters feature an electrically non-conductive fiberglass handle system with safety-guard handgrips that is resistant to 100,000 volts AC. Lightweight and durable.

Also available in a new miniature size, the Mini BoltMaster™ (DE-MBM) has the same size cutting jaws as the standard BoltMaster at a little over half the size.

### BLACKHAWK!® DYNAMIC ENTRY® BOLTMASTER RAZOR WIRE HOOK™

The first ever accessory available for our BoltMaster™, the Razor Wire Hook™ is the direct result of requests from soldiers in the field for a safe and effective way to handle razor wire once it has been cut, reducing the possibility of injury.

The laser-cut carbon steel hook easily attaches to the head of our BoltMaster without hindering the normal function of the tool and allowing it to fit into our standard Tactical Backpack Kit™.

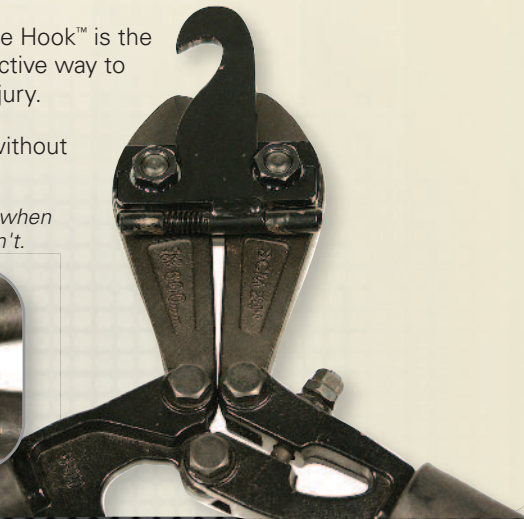

*The revolutionary attachment is at the ready when you need it and out of the way when you don't.*

#### DE-BMRH

Wt: .5 LBS

Length: 4.5" (collapsed), 5.5" (extended)
