

ATTACHING METHODS FOR POUCHES

BLACKHAWK!® is proud to introduce the fastest, lightest, strongest, and **BEST** method of mounting tactical gear to MOLLE platforms.

SPEED CLIPS are made of a modern carbon-fiber polymer material that is strong, flexible, and durable. These are the most versatile pieces of MOLLE hardware available. Developed by our R&D staff, these clips mount or disconnect pouches and other gear quickly and efficiently – **no more tedious weaving of bulky straps** or hesitation at rearranging your kit for better ergonomics. These clips make that task easy. Tested in combat, they have proven to be both reliable and secure.

- **Can be used with any existing MOLLE pouches**
Simply tuck the old strap behind the clip, cut just the snap off, or remove the cloth strap entirely
- **Color matched to your gear**
- **Come in 3, 5, 7, and 9" lengths to accommodate any size pouches**
- **Can be used in other innovative ways to enhance your personal setup**
- **Patent Pending**
