Light Duty. Heavy Duty. Off Duty.

New!

TRU-SPEC®

24-7 SERIES

READY WHEN YOU ARE.

From a surveillance detail to a desk assignment to a night on the town, today's active cops want their apparel to be ready for anything, from extreme to casual.

The new 24-7 Series by **TRU-SPEC®** is designed and built for unequalled comfort, exceptional fit and amazing versatility. And, each and every item of 24-7 apparel is styled for crisp, contemporary good looks.

TRU-SPEC'S 24-7 Series are TRU-ly originals that easily cross the line between duty and casual wear. 24-7 pants, polos and other apparel items are the real deal for any cop (or non-cop) who's passionate about comfort and full function, and for anyone who's serious about getting the most out of his on-duty and off-duty hours, without changing clothes repeatedly.

For The **Tru** Professional

24-7 Series Pants Always Ready.

Just another pair of “tactical pants”? Not on your life. **TRU-SPEC’S** signature 24-7 Series pants are the natural choice for any officer who’s looking for durability, full function and superior wearability. *And they were the hottest new apparel product introduced at the 2008 SHOT Show.*

Although **TRU-SPEC’S** exclusive 24-7 Series pants are loosely based on the tactical uniform trousers preferred by many SWAT officers and other special operators – complete with ample storage for a myriad of professional and personal gear – the remarkable fit, comfort and striking good looks help take these pants into completely new territory where no single-function tactical pant has ever ventured. These amazing pants really are designed and manufactured for virtually any purpose, day or night, whether you’re on or off the clock.

Whether you work for a small department whose officers could jump from traffic duty to an investigation to busting a crack house, all in the course of one day...or if your unit within a bigger department is looking for a practical uniform option somewhere between a Class B and a BDU, these amazing multi-function pants could be your answer.

For The **Tru** Professional

24-7 Series Pants Always Ready.

Features include:

- Constructed from either 8.5 oz. prewashed 100% cotton canvas or 6.5 oz. 65/35 polyester cotton rip-stop.
- Self-adjusting slider waistband for all-day comfort. Also accommodates either paddle style or inside-the-pant holster.
- Unique pocket design allows for casual appearance while providing secure storage for all duty requirements.

For The Tru Professional

8.5 oz. 100% cotton canvas available
in these colors:

New! 6.5 oz. 65/35 polyester cotton rip-stop,
Teflon[™] coated, available in these colors:

Available in several full range of standard and
hard-to-find sizes:

Waist 28" - 44" with 30", 32" or 34" inseam
Waist 28" - 54" with unhemmed length of 37"

New! Ladies' 8.5 oz. 100% cotton
canvas available in Khaki only:

Sizes: 2 - 14

New! 24-7 All Season

A year-round alternative to the
original 24-7's.

Looking for ultra-comfortable duty pants that can be worn all twelve months of the year? Live and work in a warm climate or someplace where the summer months can present serious uniform challenges? Manufactured from rugged, lightweight 6.5 oz. 65/35 polyester cotton rip-stop, these new 24-7 Series pants offer a genuine all-season alternative to our traditional 24-7 Series pants. They include all the same great features and they're available in the same sizes as our 8.5 oz. 100% cotton pants. They're also available in even more color options, and those colors won't fade or run.

24-7 Series Polos

READY WHEN YOU ARE.

It's Breathable. It Keeps You Dry. It Makes Any Cop Look Like A Million Bucks.

TRU-SPEC'S ultra-comfortable polo-style shirt is a perfect match for the multifunction pants that so easily crosses the line between duty and casual wear. Like the 24-7 Series pant, our 24-7 Series polo is versatile enough for a stakeout or desk duty and stylish enough for a night on the town.

The 24-7 Series polo actually combines two amazing fabrics into a single garment to guarantee maximum wearability and comfort along with sharp, contemporary styling:

- *The interior of this fabric is a unique 40% polyester single pique knit treated with TRU-DRI™ moisture wicking technology, to help pull moisture and perspiration away from the body and keep the wearer cool and dry even in hot climates and pressure packed scenarios.*

- *The exterior of this fabric is a lightweight, tightly knit 60% combed cotton to ensure the same neat, wrinkle-free appearance and the same color-fast qualities you would expect in a top-of-the-line commercial shirt.*

Like our 24-7 Series pants, the 24-7 Series polo, designed with Tru-Fit™ has been constructed to permit the kind of free, easy movement an officer needs on the job. But, it still maintains the stylish good looks that allow it to fit in so well in an after-hours social environment.

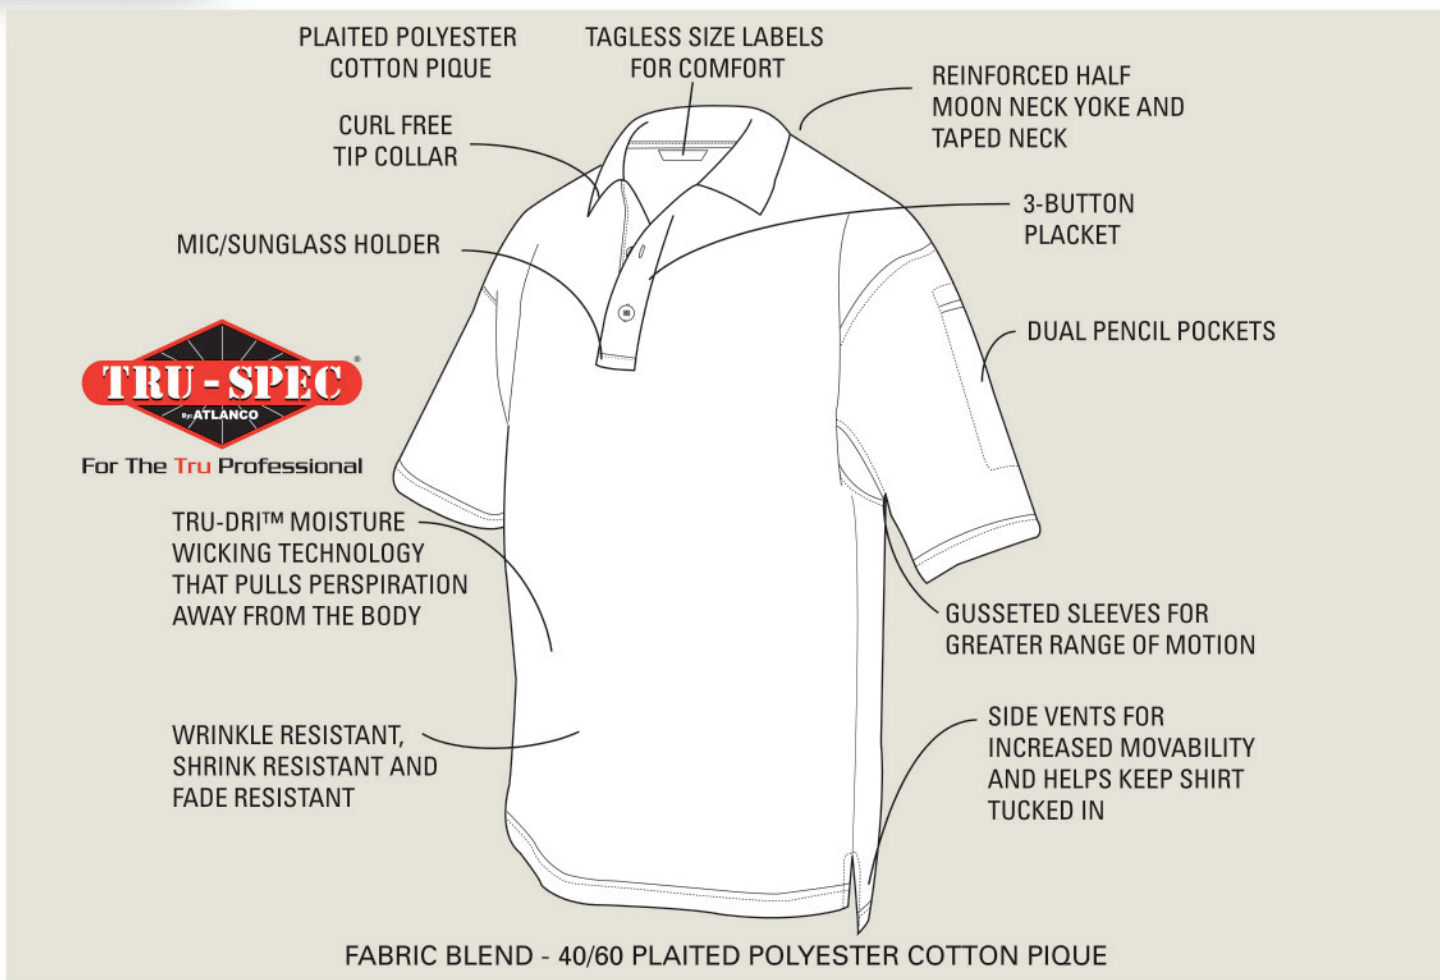

4331

For The Tru Professional

24-7 Series Polos

Special features for the working cop:

Because the new 24-7 Series polo is, first and foremost, a true working shirt for working police officers, it includes special features that active duty cops consider critical, including:

- A strategically placed microphone/sunglass loop immediately below the placket.
- A dual pen/pencil slot pocket on the left sleeve, positioned for easy access.
- Gusseted sleeves for greater range of motion.

TRU-SPEC'S new 24-7 Series polo is available in a broad size range from Small to 4XL and in eight popular colors which have been selected as suitable matches for most departmental color schemes:

New! 24-7 Series Long Sleeve Polo

24-7 Series Shorts

READY WHEN YOU ARE.

Long On Around-The-Clock Versatility.

The length of these great shorts might be abbreviated, but they include all the same great features as our standard length 24-7 Series pants in a cool, comfortable length that's perfect for warmer climates, bicycle patrols, undercover assignments or summer casual wear.

Whether you're cruising the harbor in an official patrol boat or patrolling the course in a golf cart, 24-7 Series shorts should be your pick for comfort and utility.

Available in several popular colors:

Hard Working Uniforms For The Hard Working Professional.

TRUs, ACUs, BDUs And More.

More Choices For The Well
Prepared Law Enforcement, Military
and Public Service Professional.

Nobody offers a bigger variety of
uniform options for tactical teams,
special ops units or active duty
military than **TRU-SPEC®**. From
standard issue BDUs and ACUs to
our own high tech Tactical
Response Uniform, **TRU-SPEC®**
can outfit an individual or a
complete unit with exactly the kind
of high quality field grade or dress
fatigues that fit the job, the budget,
and the departmental or
organizational specifications.

If you can't find the right work
uniform here, you're just not
paying attention.

For The **Tru** Professional

The Intelligent Evolution Of The BDU.

TACTICAL RESPONSE UNIFORM

**The Perfect Business Suit...
For The Operator Who's All Business.**

What does today's smart tactical officer wear to work?

Every workday, more and more SWAT, SRT and other elite special response units are selecting the full featured TRU, **TRU-SPEC'S** highly acclaimed Tactical Response Uniform that was designed specifically for tactical units.

Although the TRU is loosely based on the current military ACU, it goes well beyond the US Army's mil-spec (Coat - FQ/PD 04-04A, Trouser - FQ/PD 04-05A). The TRU is fully GSA-compliant, and all TRU fabrics are manufactured in the U.S. in government approved factories.

The TRU also includes several exclusive product features even the military ACUs don't have including more durable construction and enhancements that ensure better fit, greater comfort, and built-in capabilities for carrying the special gear you must have when you're on the job.

In your line of work, there's only one TRU-ism you need to know when you select your wardrobe: **TRU...** It's the intelligent evolution of the BDU.

See pages 12-13 for features, sizes and colors.

One Perfect Camo Pattern For All Environments.

TACTICAL RESPONSE UNIFORM

In The Original **MULTICAM**®

The Only Camo Pattern You'll Ever Need.

If your tactical unit is likely to find itself rushing to a potentially dangerous confrontation in the streets on Monday...arid hill country on Tuesday...and verdant farm country on Wednesday...**TRU-SPEC**® has the uniform and the camouflage pattern for you.

Developed by Crye Precision in cooperation with the U.S. Army Natick Soldier Research Center, MultiCam® takes on the shades and subtleties of the surrounding environment while disguising both volume and shape. From the desert to woodland to an urban alleyway, MultiCam® provides concealment unlike anything you've ever seen...or never seen. For the military, it's the camouflage of the future. For tactical officers, it's here today in **TRU-SPEC'S** premium quality, no fade fabric and high demand Tactical Response Uniform.

See pages 12-13 for features, sizes and colors.

To see the MultiCam® pattern in use in different environments, visit our website, www.truspec.com

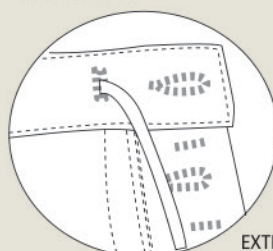

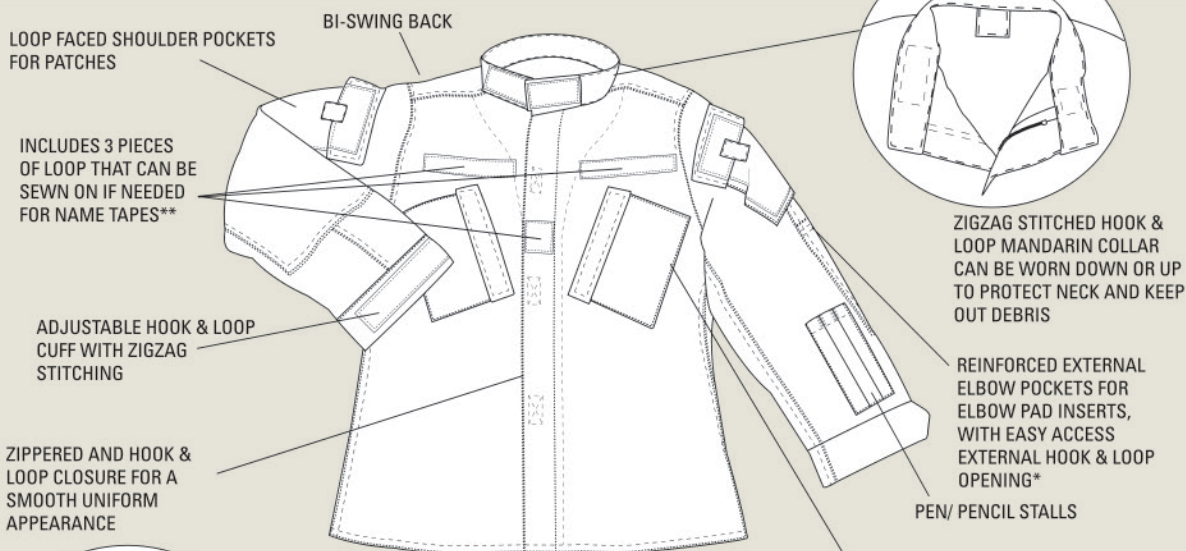

TRU Tactical Response Uniforms

EMS Dress Trousers

When You Need To Move Fast, Look Good And Feel Great.

Built For Mobility, Easy Care And Neatness.

We call these two great trousers on pages 16 and 17... "EMS trousers". And, they are. You can bet that a lot of cops, firefighters and other public safety officials have discovered just what a smart choice they are for their duty uniforms. They're chocked full of features that make an EMS tech's job much easier, like special pockets, adjustable waistbands, zipper-fly closure, and reinforced seat and knees. And they're made from one of our most popular, durable and trouble-free materials, which is now Teflon™ coated for even greater stain resistance.

Regardless what you do for a living, these are simply great pants that do it all.

FEATURES

Long Sleeve Tactical Dress Shirts

High Stylin'.

Uniformly Smart, Traditional, And A Little More Formal.

With or without a necktie...under a jacket or worn alone...these two-pocket uniform dress shirts are the final word in on-the-job apparel. Lots of people still don't consider a cop a cop unless he's wearing a sharp looking dress uniform shirt. With all the thoughtful tailoring details built into these dress shirts as well as all the functional features like hidden pencil compartments, they work as great as they look. A durable polyester cotton blend fabric ensures that they still look as good at the end of a shift as they do at the very beginning.

Military BDU Uniforms

Some branches of the military still issue BDUs just like these. Countless law enforcement, governmental and security agencies as well. **TRU-SPEC®** offers these excellent quality and very familiar BDUs in durable, non-fading, high quality 50/50 vat dyed Cordura® nylon cotton rip-stop and in a choice of the two most widely used camo patterns. We provide these BDUs worldwide, proving that good ideas never go out of style.

Digital Combat Uniforms

It's All About Concealment, And Nothing Blends Into The Background Better Than Digital.

In a digital age, it only makes sense that the highest demand and most successful camouflage patterns would be digitally inspired. The three patterns in our line of digital combat trousers and shirts break up the background and blend with the environment as well as any camouflage we've ever seen. Choose from two popular fabrics, both with great features.

Traditional BDUs In Still More Styles And Variations To Satisfy Any Purist.

To some, BDUs are pretty old school. To others, they're still the best field uniform ever conceived. For those traditionalists, **TRU-SPEC®** still offers several uniforms and individual apparel items in different fabrics, colors and patterns, but all are based on the tried and true BDU. All these BDUs are targeted at working cops, soldiers and other public defenders with specific apparel needs.

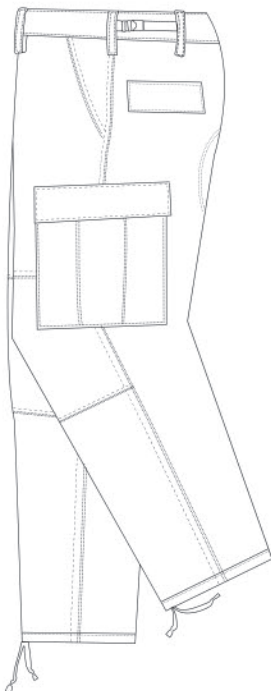

For The **Tru** Professional

Original Tiger Stripe™ BDU Uniforms

Flashback.

The Best Of The Vietnam Experience.

History repeats itself in this still popular BDU that brings back memories of Vietnam era Special Forces advisors. The authentic pattern is from Original Tiger Stripe™ Products and the BDUs are our standard issue, making these visually striking fatigues a virtual ringer for the four decades old cammies that our valiant Green Berets wore like a badge of honor. A slightly modified Original Desert Tiger Stripe™ is also available.

Neither Rain, Nor Snow,
Nor Wind Or Cold...

Foul Weather Wear

Because Working In The Great Outdoors Isn't Always So Great.

There's nothing worse than being wet or cold when the weather turns ugly. Professionals know that dressing properly from the inside-out keeps them comfortable, mentally alert, and guarantees that they're able to function as effortlessly as they do in good weather, whether it's directing traffic or responding to an emergency.

Foul weather? No problem.

TRU-SPEC® can keep public safety professionals properly dressed and protected from the elements.

RAIN WEAR BY TRU-SPEC®

H₂O Proof Army Rain Wear

Stay Dry. Stay Warm.

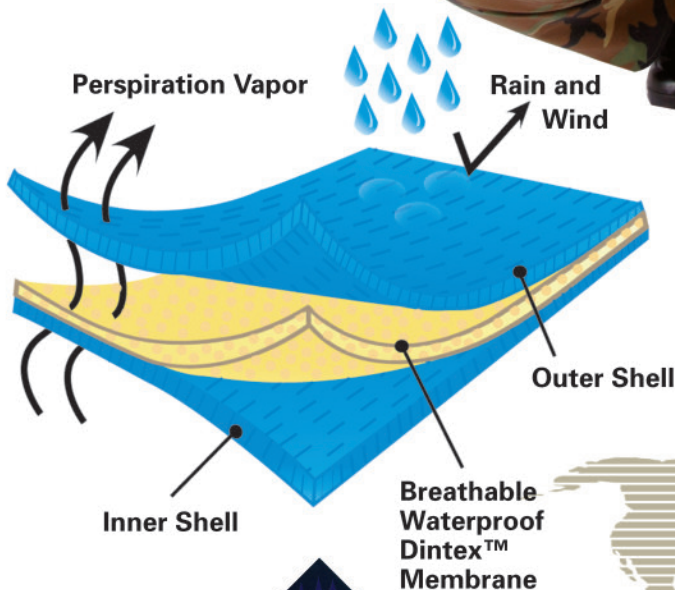

RAIN WEAR BY TRU-SPEC®

H₂O Proof Rain Wear By Tru-Spec®

Built To Serve And Protect Those Who Serve And Protect.

H₂O Proof rain wear by **TRU-SPEC®** is the closest thing to perfect protection from the elements for active cops and other public safety professionals. It's a three-layer windproof, waterproof, breathable system that keeps the rain and wind out while allowing fresh air in at the same time, wicking perspiration away from the body. Insulated and non-insulated garments are available, so in a winter snow storm, a light spring rain, a cold autumn drizzle or a punishing summer thunderstorm, there's H₂O outwear that's just right for the season.

H₂O Proof Army Rain Parkas

H₂O PROOF ARMY RAIN PARKAS

“Dry” is the operative word for this awesome, highly effective rain jacket with the three-layer design. For on-duty, off-duty or even recreational wear, it keeps you and your clothes as dry as the desert.

Tru-Spec® Gen III ECWCS

Whether It's A Little Chilly, Really Frigid,
or Colder Than An Arctic Winter

Four Layers Of Warmth; One At A Time Or All At Once.

The **TRU-SPEC®** Compatible ECWCS (Extreme Cold Weather Clothing System) provides uncompromising warmth in virtually any degree of cold weather. It meets or exceeds the construction and performance criteria for the U.S. military's current Gen III system. These four base layers are the most popular, comfortable and multi-functional components of the system most commonly worn by military personnel on a daily basis, both on-duty and off-duty.

Tru-Spec® Gen III Level 1 ECWCS

TRU-SPEC® Gen III Level 1 ECWCS: Lightweight, Cold Weather Undershirt and Drawers

These highly breathable, moisture-wicking, lightweight undergarments are quality-constructed from 3.7 ounce Performance Plus 100% polyester plaited jersey knit, a virtual match of the current military version. The fabric literally “wicks” moisture away from the skin to the outer layers of clothing, making these lightweight garments extremely popular all-day garments that provide great warmth without weight, quick drying and easy packability. As an enhancement over the military garments, all of the **TRU-SPEC®** Level 1 garments are constructed with Microban®, a powerful anti-microbial and odor-fighting agent that is added at the time of manufacture.

Tru-Spec® Gen III Level 2 ECWCS

TRU-SPEC® Gen III Level 2 ECWCS: Mid-Weight Cold Weather Shirt and Drawers

The second layer adds warmth without adding much weight. The mid-weight Level 2 zip-front shirt, long drawers and balaclava are constructed from 6.6 ounce **TRU-SPEC®** Performance Plus 93% polyester / 7% spandex plaited grid jersey knit.

The grid fleece pattern on the inside is designed for maximum breathability and improved moisture wicking properties. All Level 2 garments provide light insulation in mild cold and an additional layer of protection in really frigid conditions. Gen III Level 2 garments are constructed with Microban® to resist odors and unwanted contaminants.

Tru-Spec® Gen III Level 3 ECWCS

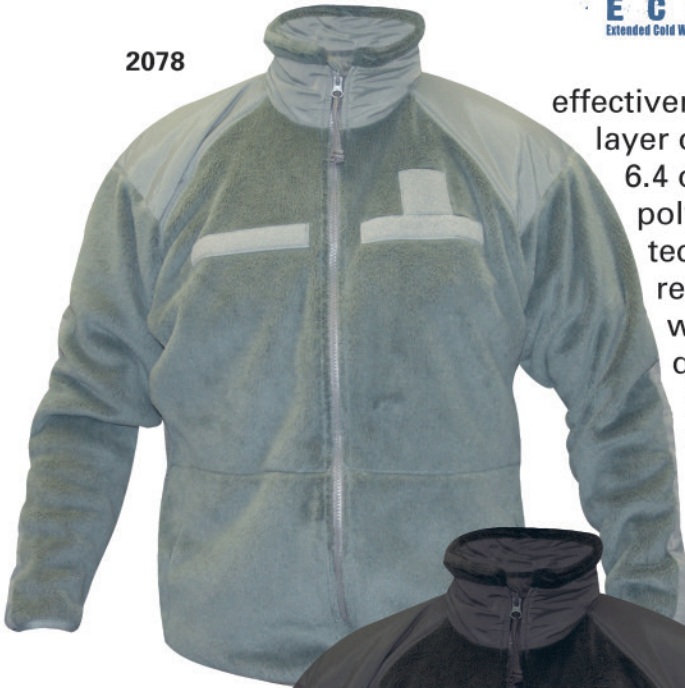

TRU-SPEC® Gen III Level 3 ECWCS: Fleece Cold Weather Jacket

This handsome, rugged jacket is the single most popular component of the military's seven-layer ECWCS system and is used with equal frequency and

effectiveness as a stand-alone jacket or as an additional layer of insulation. The Level 3 jacket is constructed of 6.4 ounce **TRU-SPEC®** Performance Plus, 100% polyester high-pile-velour thermal fleece, a technologically advanced fabric which traps air to retain body heat, thus providing unmatched warmth without adding weight. The material is also very quick drying, affords excellent breathability, and packs down into a very compact size.

2078

Tru-Spec® Polypropylene Gen III Thermals

Insulate Against The Cold. Proven Protection Against The Elements.

Polypropylene has been one of the most popular cold weather insulators for many years. Military and law enforcement personnel as well as active outdoorsmen, all of whom need to protect themselves from frigid winter conditions, sing the praises of polypro's warming properties. **TRU-SPEC'S** polypro thermal system offers up to five pieces of protective apparel to be layered under a uniform for effective cold weather safety and comfort. Recent improvements include the addition of anti-microbial Microban® to the heavy expedition weight fabric, plus a host of design and manufacturing improvements that ensure maximum comfort and long lasting durability.

MA-1 Flight Jackets

Keep Grounded. Keep Warm.

No Bulk, Just Comfort And Rugged Good Looks.

Anyone who's in and out of a vehicle during unfriendly weather knows the value of a jacket that ensures warmth but doesn't include a big, heavy feel. MA-1 flight jackets are still favorites of aviators, including helicopter pilots,

but they're equally popular among police officers assigned to patrol cars...EMTs who are required to be in and out of ambulances for an entire shift...and private security officers who are responsible for both inside and outside patrols. The nylon shell and polyester filling provides plenty of warmth and the full cut allows the officer to layer comfortably as the weather dictates. A knit collar, cuffs and waist keep the wind out.

2260

FEATURES

MA-1 FLIGHT JACKET:

- 100% NYLON SHELL
- 100% POLYESTER FILLING
- REVERSIBLE TO ORANGE
- HEAVYWEIGHT
- FULL CUT
- HIGH QUALITY, DURABLE ZIPPERS
- KNITTED CUFFS, COLLAR AND WAIST

M-65 Field Coat And Liners

**The Military Knows How To Stay Warm.
Sometimes The Army Way Is Still The Best.**

If your department or organization requires a traditional military look in all things, here's the way to keep warm in a soldierly way. An old favorite, M-65 field coats have been standard issue cold weather gear to more U.S. troops for more years than anyone can quantify. And they still do the job! **TRU-SPEC®** offers traditional military-style M-65 gear in multiple solid colors and camo patterns, complete with a liner.

FEATURES

M-65 FIELD COAT WITH LINER:

- WATER RESISTANT TREATED CLOTH
- MANUFACTURED TO US MILITARY SPECIFICATION MIL-C-434555J (ACU MIL-DTL-43455K)
- BRASS ZIPPER WITH STORM FLAP
- INSIDE BUTTONS FOR QUILTED LINER

Uniform Accessories and Casual Wear

Dress For Success.

Just What You Need To Complete Your Wardrobe.

When you're on duty, the right boots, hat and belt are as important to the right look as your uniform jacket and trousers.

Off duty, what you wear says a lot about who you are.

TRU-SPEC® offers a broad selection of accessory items that allow you to finish your uniform in a professional way, along with apparel that will help you continue the look after hours.

For The Tru Professional

A Solid Foundation For The TRU Professional.

It's true: When your feet hurt, everything hurts. Correct footwear is one of the most critical components of any uniform. **TRU-SPEC®** offers four outstanding, high value models of combat, tactical and jungle boots for the professional who is as concerned about comfort as much as appearance.

TRU POCKET AND NAME/RANK CONVERSION KITS

These two conversion kits are essential add-ons for our Tactical Response Uniforms. The Pocket Conversion Kit cover the hook and loop fasteners on the shoulder pockets; the Name/Rank Kit allows the user to add a name tape and rank piece so the TRU looks and functions even more like the military ACU. Both kits are available in colors and fabrics consistent with our TRUs.

CORDURA® brand Baselayer: Tougher apparel starts with a tougher fabric.

There are t-shirts. Then there's CORDURA® brand Baselayer, one of the world's most unique undergarments/ physical fitness shirts manufactured from one of the world's toughest and most functional performance fabrics. The 60/40 cotton nylon blend boasts a much greater strength-to-weight ratio than cotton... it's six times more abrasion resistant than cotton... it has much more superior moisture wicking capabilities than 100% cotton... and it dries two-and-one-half times faster than cotton.

TRU-SPEC'S new CORDURA® brand Baselayer shirt will be manufactured to the highest standards, including flatlock construction and strategic seam placement to avoid seam stacking. Additional benefits for both military, law enforcement and other public safety professionals include:

- EXCEPTIONAL NO MELT/NO DRIP PERFORMANCE
- A REDUCTION IN THE SEVERITY OF BURN INJURIES
- MAXIMUM COMFORT AND FLEXIBILITY IN VERY PHYSICALLY DEMANDING SITUATIONS

You Take Your Hunting Seriously.
So Do We.

TRU-SPEC

By ATLANTICO

Outdoors

Serious Camo Clothing With Military
 Roots For Serious Outdoorsmen.

Can you imagine a company better qualified to dress you for the outdoors than one that's been outfitting military and law enforcement personnel for generations? After all, nobody knows more about camouflage than a company that supplies professionals whose lives depend on not being seen. And, nobody is more familiar with manufacturing high quality, feature-laden apparel that withstands the rigors of time as well as the toughest climates and environments on the planet.

Budget camo clothing is available at every big box retailer and five-and-dime. But serious hunting apparel for hunters-in-the-know isn't. Thanks to **TRU-SPEC®** Outdoors, you don't have to look far.

MultiCam® For Hunters

**Smart Hunters Know
A Good Thing When
They Don't See It.**

**One Perfect Camo Pattern For All
Environments And All Seasons.**

If you've never seen a camouflage pattern that can be worn anywhere and for virtually any type of hunting, take a long, hard look at this.

MultiCam® is the amazingly versatile camo pattern developed by Crye Precision in cooperation with the U.S. Army Natick Soldier Research Center. Just like the wildlife, MultiCam® actually adapts to various geographic, lighting and climatological conditions to become part of the environment. So, no matter where you hunt or what you hunt, with MultiCam®, you actually become one with the background whether it's an eastern hardwood forest, a western prairie, or a duck blind on a southeastern waterway.

Don't believe us? See MultiCam® for yourself at your favorite Tru-Spec® Outdoors reseller.

MULTICAM®

**MultiCam®. For the Army, it's the
camo pattern of the future.
For hunters, it's here today.**

Tru-Spec® Uniform Fabrics

ENHANCED 65/35 POLYESTER COMBED COTTON VAT DYED RIP-STOP FABRICS

This comfortable uniform fabric achieves excellent color fastness with durable strength properties and is created for tactical use. The Enhanced Rip-Stop fabric is constructed of 65% polyester and 35% combed cotton that is attractive and made for all-season wear. The following are a few characteristics of why this fabric is the choice of America's finest:

- Wind resistant
- Fade resistant and color fast
- Durable and minimal damages if snagged
- Repairable with little noticeability
- Minimal shrinkage from multiple washings
- Quick drying
- Wrinkle resistant
- Comfortable

ENHANCED 65/35 POLYESTER COMBED COTTON VAT DYED TWILL FABRICS

This fabric is vat dyed for colorfastness with enhancements that make it wrinkle and stain resistant. It has all the qualities of our enhanced 65/35 polyester combed cotton rip-stop with a refined twill appearance.

100% COTTON RIP-STOP FABRICS

This rip-stop fabric is constructed of breathable medium weight cotton weave and is very comfortable. It retains some of the strength properties of our 65/35 polyester combed cotton rip-stop fabric. All cotton rich products have the characteristics of fading quickly. Purchase this product if fading is acceptable and colorfastness isn't a concern.

60/40 COTTON POLYESTER TWILL FABRICS

Our heavyweight 60% cotton and 40% polyester fabrics are made for long life and tough enough for the most rugged job. You will have years of use from this outstanding performance tested product.

100% COTTON CANVAS FABRICS

This heavyweight 8.5oz. 100% cotton canvas fabric uses a pretreated garment wash to prevent shrinkage and color fading.

ENHANCED 65/35 POLYESTER COMBED COTTON VAT DYED RIP-STOP FABRICS WITH TEFLON™ COATING

This state of the art fabric combines the comfort and durability of our enhanced 65% polyester and 35% cotton rip-stop fabrics with the stain repelling features of DuPont™ Teflon™.

Atlenco offers organization patches and name tape attachments for contract orders. Customized sizing is also available on volume contract orders. Please contact an Atlenco service representative for more information on these special services.

For The Tru Professional

About The Logos In This Catalog

The logos in this catalog provide you with the assurance that each item offered by **TRU-SPEC®** is superior in every way, from the materials we use to manufacture our products to our own final stamp of approval. The logos you'll see include:

Products displaying this logo are compliant with the Federal Acquisition Regulation (FAR) of the US General Services Administration for use by executive agencies in acquiring goods and services.

New to the market, INVISTA Performance Materials' new CORDURA® NYCO knit for t-shirts and base layers creates superior performance by combining CORDURA® with nylon and cotton to create a revolutionary knit that has superior moisture management performance and unparalleled breathability.

A three layer windproof, waterproof and breathable rainwear system that guarantees dryness and comfort. Manufactured from durable, high performance materials that will not lose their effectiveness even after multiple hard usages or washing.

Developed by Crye Precision in cooperation with the US Army Natick Soldier Research Center, MultiCam® is a single camouflage pattern designed to help conceal the wearer in varied environments, seasons, elevations and light conditions.

For The **Tru** Professional

If a garment or piece of gear is marked "Tru-Spec®", you know it was manufactured by one of the leaders in the design and production of the world's finest and most visionary military and law enforcement apparel.

Designed for unequalled comfort, exceptional fit and amazing versatility either on-duty or off-duty. A cross between duty and casual wear.

DINTEX® is DING ZING's registered trademark for its high performance TPU film with excellent water-proof and breathable properties. With its hydrophilic structure,

DINTEX® allows rapid evaporation and evacuation of sweat moisture along with strength, elasticity and flexibility.

The National Tactical Officers Association's comprehensive product review that allows manufacturers to have their products tested in the field by active

members of the law enforcement community. Results are published on the NTOA's website and in their quarterly journal, The Tactical Edge. Only products recommended by NTOA testers are allowed to display this logo.

Teflon® is a registered trademark and brand name of the DuPont company. When applied to clothing, non-stick Teflon® ensures superior stain resistance which is unmatched by virtually any other product.

Serious outdoor clothing with military roots for the serious outdoorsmen.

Our Tactical Response Uniform (TRU) is the result of collaborative efforts with Public Safety professionals from the Immigration and Customs Enforcement (ICE), the U.S. Department of Homeland Security (DHS), local law enforcement and Tru-Spec's manufacturing professionals. The TRU exceeds military manufacturing specifications and offers maximum comfort, durability and functionality.

A registered trademark of INVISTA. For more than 30 years, CORDURA® has been recognized worldwide as one of the world's most durable fabrics and the first choice for manufacturers of high performance gear and apparel.

The third generation of our Extended Cold Weather Clothing System (ECWCS) is a complete redesign of the cold weather clothing system used by members of the US military. Based on the layering systems popular among mountaineering professionals, the GEN-III ECWCS

features a new multi-layer insulation system that is adaptable to any climate or user.

A durable, effective antimicrobial product that inhibits the growth of

microbes such as bacteria, mold and mildew that can cause stains, odors and product deterioration. Microban is built into selected products during the manufacturing process.

Tru-Spec's Professional Grade apparel and equipment, designed specifically

for the discriminating professional who demands the very best quality, durability, dependability, and state of the art features.

The original Tiger Stripe pattern first used by US Special Forces during the Vietnam war.

Accessory and equipment items that compliment our TRU-SPEC® apparel both in quality and design.

Who Is **TRU-SPEC®** by Atlanco?

Atlanco was founded in 1950 and soon became a leading distributor of military products in the Southeast region of the United States. From the beginning, diversification and customer service have been core elements of the company's policy.

In the mid 1980's, the company identified a growth opportunity and developed a new military apparel and accessories product line under the brand name "Atlanco". These "Made in the U.S.A." products earned national and international recognition, leading to new markets and continued growth.

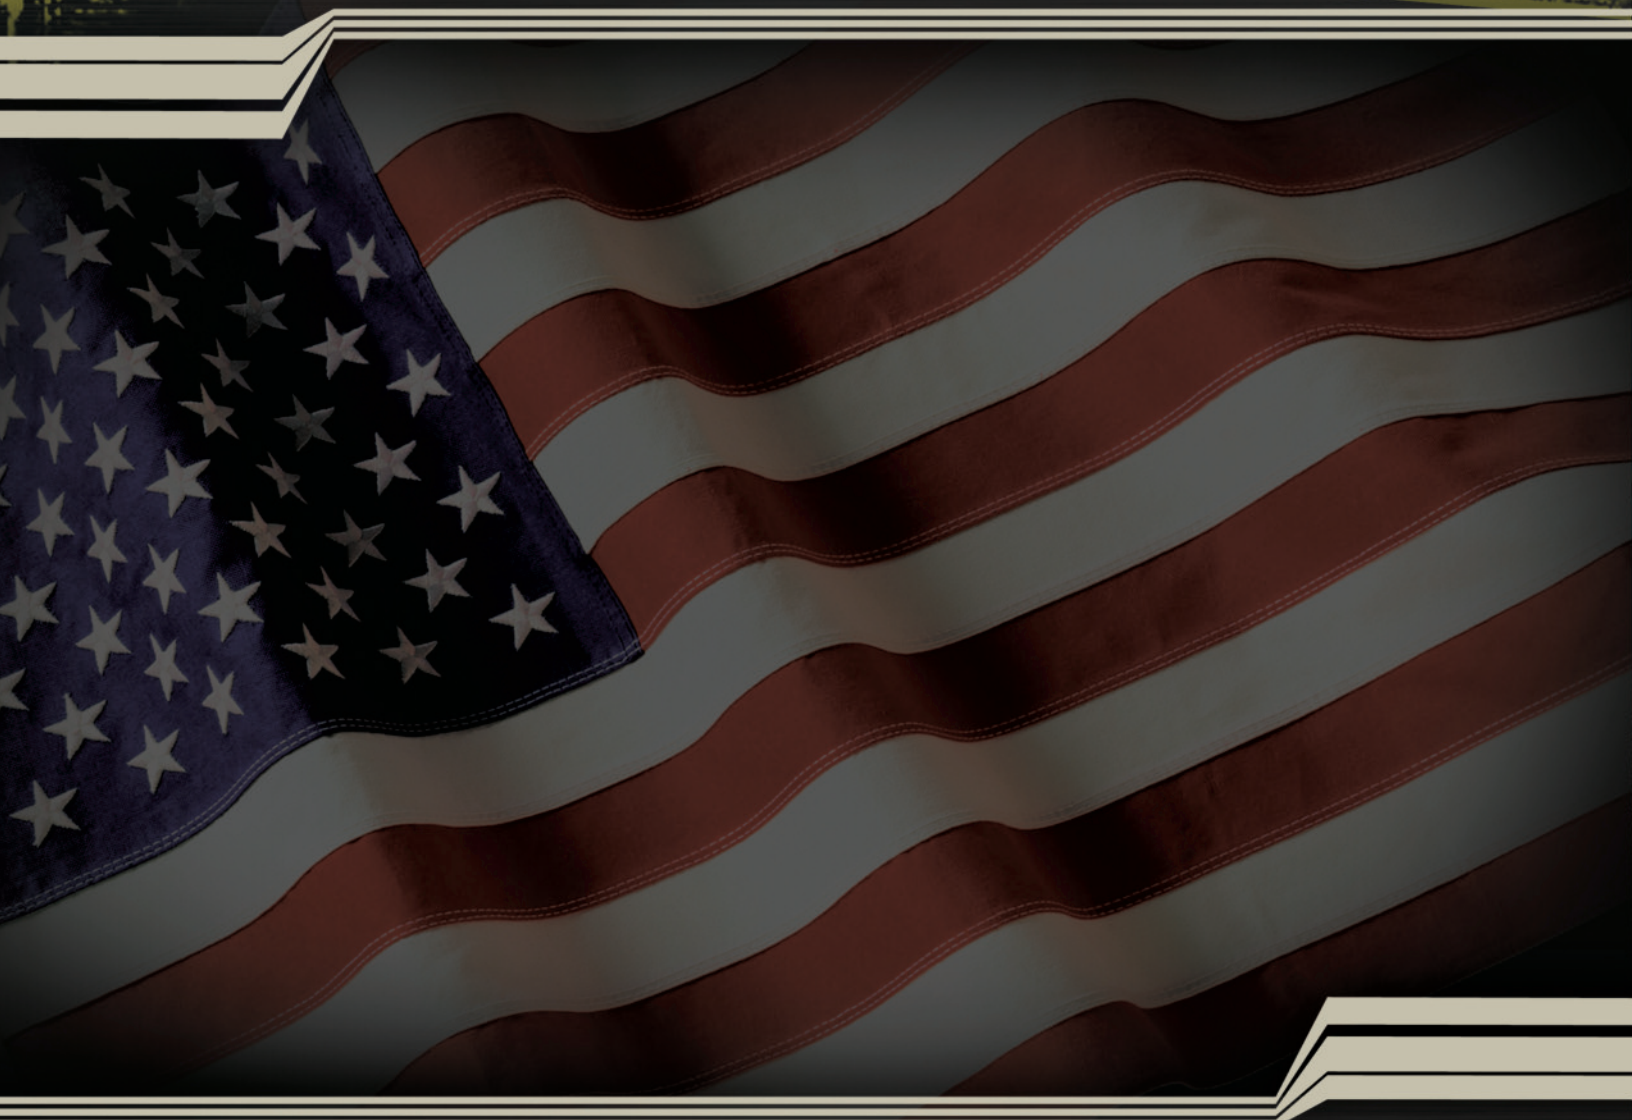

As the market evolved, Atlanco opened its first manufacturing facility in Honduras in 1996 with the intention of manufacturing the highest quality uniforms at competitive prices. The brand name "**TRU-SPEC®**" was created for that line, reflecting the fact that these uniforms are manufactured to the U.S. Government's "true specifications" and using USA mil-spec fabrics. The **TRU-SPEC®** brand has developed into an industry leader and has expanded from its core military apparel to include public safety and law enforcement clothing and equipment, as well as outdoor apparel.

Today, demand for the **TRU-SPEC®** brand continues to grow. In response to that demand, **TRU-SPEC®** opened a new 110,000 square foot manufacturing facility in Honduras in March, 2004. This state-of-the-art facility allows the manufacturing process to be housed under one roof, with ample room for expansion. This factory currently supports 1000 employees, specialized in the manufacturing of high quality uniforms and industry related equipment and accessories. However, all **TRU-SPEC®** products are made to the same ridged specifications, regardless whether they're made in our factory or in other approved factories around the world.

For The **Tru** Professional

TRU-SPEC® products are available only through approved **TRU-SPEC®** dealers and distributors. Merchandise may not be purchased directly through **TRU-SPEC®**. For a list of approved **TRU-SPEC®** resellers, visit our website: www.truspec.com
